IVOR SEARLE EXPANDS LCV MANUAL GEARBOX RANGE

K

eeeping on top of the latest automotive trends and technology has become essential for independent workshops looking to

sustain and grow their business in today's competitive servicing, maintenance and repair market.

Alongside passenger cars, the increasing volume of light commercial vehicle on the road, in part driven by the continuing growth of the home delivery market, presents an opportunity for workshops to increase their repair business.

With this in mind, leading remanufacturer Ivor Searle has expanded its all-makes range of gearboxes for LCVs. Costing up to 40% less than OE, the latest additions to the

Ivor Searle LCV manual transmission line-up includes applications for 2.0L and 2.3L versions of the popular Renault Trafic II and Master, the Vauxhall Vivaro and Movano, and the Nissan NV400. The new additions include specific gearboxes for models fitted with and without cruise control.

For peace of mind, all Ivor Searle gearboxes are covered by a 12-month unlimited mileage parts and labour warranty. In addition, Ivor Searle holds comprehensive stocks to ensure first class customer service and minimum vehicle downtime and provides free next day UK mainland delivery for stock items ordered before 3.30pm.

For more information: 01353 720531 or www.ivorsearle.co.uk
