Ivor Searle has added new turbochargers to their range, covering Mercedes A, B and CLA Class diesel models.

This expansion strengthens Ivor Searle's extensive selection of turbos for cars and light commercial vehicles (LCVs), catering to over 90% of the UK market.

The new units are designed for:

- Mercedes A Class hatchback (1.8 litre diesel engine, 2012 onwards)
- Mercedes B Class subcompact (2.1 litre diesel engine, 2012 onwards)
- Mercedes CLA Class coupe (2.1 litre diesel engine, 2012 onwards)

These remanufactured turbos offer a cost-effective alternative to original equipment (OE) parts, potentially saving customers up to 40%.

All Ivor Searle turbos come with a two-year unlimited mileage warranty on parts and labour, they also offer free next-day delivery for orders placed before 3:30pm on UK mainland stock items.
