

# THE REMANUFACTURED ALTERNATIVE: WHY BUY NEW?

**Leading remanufacturer Ivor Searle has seen a continuing**

**increase in demand from workshops for its high quality remanufactured engines, cylinder heads, gearboxes and turbochargers due to the high cost of purchasing brand new products.**

These are generally too expensive for independent garages operating in today's highly price-sensitive market. However, although it's more economical to source a remanufactured product, quality is a key factor as the complex process of remanufacturing an engine or component back to OEM requires significant technical expertise and rigorous

inspection procedures. To achieve this, all remanufactured Ivor Searle engines are built to exceed the BS AU257:2002 Code of Practice which sets out the difference between a high quality remanufactured engine to an inferior reconditioned, refurbished, or rebuilt engine. Brand new replacement parts sourced for their reliability and durability are used in the remanufacturing process. Furthermore, Ivor Searle employs the same quality-focussed ethos from over 70 years of engine remanufacturing expertise when it comes to cylinder heads, gearboxes and turbochargers which are remanufactured under a quality management system certified to ISO 9001:2015. The company offers an

extensive all makes programme of remanufactured products for petrol and diesel cars and light commercial vehicles, with new applications being constantly added. To guarantee peace of mind, all Ivor Searle engines, cylinder heads and gearboxes are covered by a transferable 12-month unlimited mileage parts and labour warranty, while a two-year warranty covers all turbochargers. All products are also supplied with pre-installation guidelines for the workshop and model-specific instructions where required. Ivor Searle holds comprehensive stocks to ensure first class customer service and minimum vehicle downtime, as well as free next day UK mainland

delivery on stock items ordered before 3.30pm. A new e-commerce website [www.ivorsearle.co.uk](http://www.ivorsearle.co.uk) also enables customers to search quickly and easily for the products they require, check availability and order stock items online with just a few mouse clicks. Ivor Searle has an extensive distributor network across Scotland, so no matter where you are, you're never far away from a quality Ivor Searle product.
