Ivor Searle now offers remanufactured turbos for 2018+ Ford Transit diesels

Replacement turbos for popular vans at a competitive price

Adam Tudor-Lane • September 5, 2024 • Comments Closed • 0 likes

Engine remanufacturer Ivor Searle has expanded its range of turbos to include units for the 2.0-litre diesel engine found in Ford Transit vans manufactured from 2018 onwards.

This new application covers the Euro 6 diesel engine used in these popular vans, which have become a vital workhorse for many businesses.

Ivor Searle offers remanufactured turbos as a cost-effective alternative to original equipment (OE) parts. They claim their turbos are up to 40% cheaper than OE options, while still maintaining high quality.

All Ivor Searle turbos come with a two-year unlimited mileage warranty for parts and labour, providing peace of mind for customers. Additionally, they offer free next-day UK mainland delivery for orders placed before 3:30 PM.

For more information on this new turbo application or other remanufactured parts, contact the Ivor Searle sales team on [01353720531](tel:01353720531) or [visit their website by clicking here](#).
