

THE REMANUFACTURED ALTERNATIVE: **WHY BUY NEW?**

Ivor Searle has seen a continuing increase in demand from independent garages for its remanufactured engines, cylinder heads, gearboxes and turbochargers due to the high cost of purchasing brand new products.

However, although it's more economical to source a remanufactured product, quality is a key factor as the complex process of remanufacturing an engine or component back to OEM requires significant technical expertise and rigorous inspection procedures. To achieve this, all remanufactured Ivor Searle engines are built to exceed the BS AU257:2002 Code of Practice under a quality management system certified to ISO 9001:2015.

Ivor Searle offers an all makes programme for petrol and diesel cars and vans, with new applications being constantly added. To guarantee peace of mind, all Ivor Searle engines, cylinder heads and gearboxes are covered by a transferable 12-month unlimited mileage parts and labour warranty, while a two-year warranty covers all turbochargers. To find out more please visit www.ivorsearle.co.uk or call the Ivor Searle sales team on 01353 720531.
